4. Assessment and Certification

5. Self Evaluation sheets
1. Introduction

1. The whole programme will comprise 7 units of 9 lessons each and a final revision unit of 18 lessons for a total of 54 contact hours.

2. The aim of this programme is to help learners achieve a level 1 on the Malta Qualifications Framework in the four basic skills in language learning (Italian).

3. The learners will acquire and develop a communicative competence which allows for an effective and meaningful interaction in diversified social contexts. S/he will also develop skills, language and attitudes required for further study of the language, work and leisure.

4. The learner will develop skills in order to be able to listen to and interact with others and understand the general sense of a variety of basic oral messages, intended for various purposes.

5. One may define level 1 as a “survival kit” in Italian. For this reason, attention to reading and writing might be delayed till later (e.g. Unit 1.04), when the groundwork for listening and speaking will have been well laid and solidified.

6. Writing will not be totally excluded from the first units: but attention will be focused on speaking and listening. Decisions of this sort will be left at the discretion of the teacher and according to students’ needs.

7. Topics such as Christmas, Carnival etc. which are related to a particular period of the year can be included as the programme unfolds.

8. Cognates are to be used regularly especially to alleviate difficulties students might meet in vocabulary learning and to recognise similarities and/or differences among Maltese, Italian and other languages.

9. The focus of this programme is communicative competence. Grammar is to be inserted in order to develop communicative abilities and language proficiency. Emphasis is not to be made on memorising grammatical forms and meta language (e.g. defining the various parts of speech). The programme is not prescriptive and does not define the moment when a particular grammar point needs to be taught. The teacher may decide when and where a particular grammar point will be included in the teaching programme.

10. The SPA will not specify any cultural topic since culture is a means to teach the language and to develop intercultural knowledge, skills and attitudes. It will be teacher who will decide which cultural topics to use and when.

4. Assessment & Certification

The Subject Proficiency Assessment programme has, as one of its specific aims, to establish the individual student’s language ability and describe the learner’s language skills. Its main aim is to provide a method of learning, teaching and assessing which applies to all languages. The programme offers a fully comprehensive assessment of the four basic skills or abilities in a language, namely speaking, listening, reading and writing.

1. The SPA has three levels in line with the Malta Qualifications Framework – from Level 1 for the most basic user to Level 3 for the independent user.
2. Proficiency tests, unlike achievement tests, are intended to measure a learner’s command of a language irrespective of his/her background in that language and therefore do not depend on particular class content or course materials.
3. There will be no traditional half-yearly exams but throughout the year students will be continuously assessed in class.
4. All students following the SPA programme at Form 3 (both at State and Non State schools) can take the SPA exams for Level 1 at the end of the scholastic year.
5. Students who obtain a pass mark in at least 2 of the 4 language skills will be promoted to the next Level of SPA, whereas those students who do not reach the grade at Form 3 will, at Form 4, continue to follow the Level 1 programme of studies.
6. There will be one national examination session per year at the end of the scholastic year and students will be required to register for SPA exams at their respective schools.
7. The productive skills (speaking and writing) and the receptive skills (reading and listening) will be assessed.
8. A certificate will be issued specifying the skills and marks obtained in each test.
9. Prospective students are encouraged to consult the SPA Syllabus describing the competences in the individual language skills required for each level. The Syllabus describes the typical communicative situations and topics used in the tests and the knowledge of grammar structures expected. It also describes the criteria of evaluation.

Assessment for learning (Afl)

- Assessment for learning uses continuous assessment methods to gauge a student's progress over a period of time in various language learning contexts. Evidence of specific skills and other items at one particular time and language performance and progress over time is collected in all four abilities (listening, speaking, reading and writing,) or in all three communication modes (interpersonal, interpretive, and presentational). Using a combination of testing instruments lends validity and reliability to the assessment process.
- Assessment for learning promotes positive student involvement. Students are actively involved in and reflecting on their own learning. The student’s self-confidence increases as well as the student’s ability to assess and revise work. Student motivation to continue studying and succeeding in language learning tends to grow in such an environment.

- Assessment for learning is incorporated fully into instruction: there is no time lost on assessment since every learning experience, activity, student’s action is considered as evidence and therefore gives the opportunity to both teacher and learner to act upon it.

The following “can do” statements are linked to the learning outcomes at Level 1 in all the 4 language skills:

Testing

Each level consists of four tests that assess language competence in the four skills: listening, reading, writing and speaking. Each of the 4 skills will have a total score of 20. Continuous assessment will have a weighting of 5 marks per skill.
