Guidelines Year 11 – Scholastic Year 2022-23

1. Sample papers for Year 11 Annual summative assessment are uploaded on the DLAP website.

2. Based on learning outcomes as per SEC syllabus 2023, these sample papers are aimed to show some examples of tasks which students will be requested to tackle in the annual summative exams in alignment with the new SEC format. It is important that teachers become familiar with Learning Outcomes as per SEC syllabus 2023 which can be accessed through the following link:

3. All tasks included in the annual summative assessment will be based on the four skills: Reading/ Writing/Listening/Speaking. It is highly recommended that assessment during the scholastic year reflects similar tasks.

4. All four skills should be given equal importance. In the case of speaking, students should be given the opportunity to practise both speaking production as well as speaking interaction skills. The latter make it possible for the student to ask and answer questions in an authentic situation.

5. Assessment tasks should not be based on grammatical notions. However, during the teaching and learning process, grammar structures are to be included and tackled according to the students’ needs.

6. Culture is to be embedded in the teaching and learning process, even though this will not be tested.

7. It is expected that students are exposed to different types of tasks/questions. More than one type of question should be included in the same exercise. Kindly refer to the Sample papers for some examples.

8. In alignment with SEC French syllabi 2022/23, in the case of writing production skills, students will not have a choice of titles. Students will be requested to tackle two types of tasks: a short one e.g texto/e-mail/un court article etc., and a longer one (article, e-mail etc). Kindly consult the sample paper for the word limit requested.

9. It is important to remember that one cannot copy blatantly a text from any book. Furthermore, it is highly recommended that one adapts such texts and quotes the source.

10. Kindly bear in mind that, in the case of the Compréhension de l’oral, the text will be read twice for each exercise to reflect new SEC procedures. Remember that V/F + justification questions are not to be given to test this skill. Students may read the questions before the first reading and take down notes during the first reading.
11. Marking schemes are included in the sample paper.
12. Kindly remember that students who will sit for **SEC French exam 2022/23**, will be considered as private candidates. They will sit for level **2-3** papers only. Teachers must be aware of this set-up.

If you have any difficulties, do not hesitate to contact me or your respective HoD.
