Our Ref: NAO 46/2019

15th February 2019

Dear Head of School,

You may wish to be informed that the National Audit Office is carrying out an IT Audit on the "Effective use of Tablets in State, Church and Independent Primary Schools".

In this regard, the National Audit Office will be selecting a number of schools, which will be contacted for a meeting. During these meetings, NAO IT auditors will be gathering preliminary information related to this audit.

In addition, data for this exercise will be collected from a sample of schools, through an online questionnaire, which will be distributed by the school administration to teachers and parents of Year 4, 5 and 6 classes. On completion of the above survey, the NAO IT auditors may schedule audit visits at these schools.

Kindly note that no personal data will be collected through the online questionnaire, and all the data collected from this questionnaire will only be used for the purpose of this audit.

We thank you for your cooperation.

Simon Camilleri

IT Audit Manager
National Audit Office
