

Dear Head of School

Life Network Foundation, in cooperation with Institute for Integrated Prevention, conducts research aimed at understanding the conditions of youth development, support and risk behaviour prevention.

The online research being proposed will help us to understand how the situation brought about by the restrictions of the Covid -19 lockdown impacted on the life of the youths. The research concerns important matters of youth problems regarding relationships, spending leisure time, peers, school and sexuality. Results are confidential and will only be used for preparing a collective summary of hundreds of questionnaires from many schools. General results will be made available to your school and we also offer the possibility of holding sessions with you to further explain to a team from the school how results can be used to better improve the well-being of youths.

Thank you for your cooperation

Sincerely,

Dr. Miriam Sciberras BChD (Hons) MA Bioethics
