PREFACE

This document is a result of the consultation process conducted in 2017 and 2018. It serves as a pedagogical tool intended to help teachers of English meet the different needs of the learners. Apart from this supporting document, there is another document which contains all the Learning Outcomes for Year 7 and 8 which bind all sectors. This binding document may be accessed through this link: <http://www.schoolslearningoutcomes.edu.mt/en/subjects/english/level/7>

According to the new LOF approach, each attainment level progresses at two yearly intervals. Therefore, it is assumed that Year 7 and 8 students will attain the learning outcome statements in attainment level 7.

The content of the first part of this document contains a Learning Outcome code which reflects the strand and the number of the LO in the binding document aforementioned. The Learning Outcome column presents a broad statement which is then unpacked, and its information structured so that complex ideas can be taught at a simplified level first (Track 1), and then re-visited at more complex levels later on (in Track 2 and 3). Therefore, all LOs are to be taught at levels of gradually increasing difficulty depending on the level of the learner. It is thus assumed that learners at Track 3 level would have attained the specific learning outcomes of the two levels preceding it.

Although the strands are presented separately in this document, the integrated-skills approach is to be adopted when planning to ensure a motivating and meaningful context. The integrated-skills approach is underpinned by a sound acquisition of the basic language elements — grammar, vocabulary, and pronunciation – the LOs of which can be found in Appendix 1, and which are to be taught inductively and integrated within all the strands.

We would like to extend our gratitude to the following Heads of Department for their contribution throughout the process of compiling this document: Mr Edwin Attard, Ms Suzanne Camilleri, Ms Giselle Desira, Ms Marika Sammut Dimech, Ms Mariella Farrugia, Ms Melanie Fenech Ishmael, Ms Therese Frey, Ms Lilian Oliva Mifsud, Ms Heather May Richard, Ms Claudine Sciberras, Ms Caroline Sciriha, Ms Miriam Theuma Xerri, and Mr Stefan Zammit.

We hope that you find this document helpful whilst implementing the LOF approach. Any queries or suggestions should be sent to the Education Officers for English (Secondary) listed here: Clarissa Padovani: clarissa.padovani@ilearn.edu.mt; Marika Vella: marika.vella@ilearn.edu.mt; Pamela Zerafa: pamela.zerafa@ilearn.edu.mt.

Appendix 2: Year 7 & 8 Core Curriculum Programme (CCP)

The Core Curriculum Programme (CCP) is underpinned by the learning outcomes of key competences at Level 1 as defined in the European Qualifications Framework. The Level Descriptors for Level 1 are presented in the document Descriptors of Key Competences in the National Qualifications Framework Levels 1 to 3 issued by Malta Qualifications Council which can be accessed at <http://www.mqc.gov.mt/descriptors-key-competences?l=11>.

When planning their thematic scheme of work, teachers may wish to use the **topics listed in Appendix 5** (pgs. 64-65) or any other topics which might seem relevant and meaningful to the students. Lessons should be pitched at the learners' level of attainment and carefully scaffolded, with a focus on functional language which is relevant and useful to students inside and outside the classroom. Therefore, stand-alone grammar lessons should be avoided. In fact, the language structures which students are to be exposed to are embedded within the learning outcomes for CCP and these are to be taught inductively and within relevant contexts. For ideas on text and task selection, kindly refer to pages 46-47. Teachers are highly encouraged to use realia, realistic contexts as well as age- and level-appropriate texts which are meaningful and relevant to the students.

With regard to literature, CCP students are equally entitled to literature lessons during which they are helped to appreciate age- and level-appropriate poetry, prose, and drama texts. The primary focus should be on the enjoyment of literature. Here are some examples of where one can find Hi-Lo literary texts: *The Collins Big Cat Series*, *Real Reads*, *The Bluford Series*, *Saddleback Publishing*, *High Interest Publishing*, *High Noon Books*, *Stone Arch Books*, *Rapid Reading Scheme*, *Barrington Stoke*, *Wellington Square* as well as audiobooks such as *Learning Ally* and *DigitalBook.io*. Graphic novels and comics might also be appealing to struggling readers. This link might give some ideas: <https://www.readingrockets.org/blogs/aiming-access/19-graphic-novels-engage-students-and-keep-them-reading>

With students who struggle with literacy, time needs to be allocated to literacy teaching, paying particular attention to decoding, encoding and language comprehension which should lead to skilled reading and writing. Research on adolescent literacy highlights the importance of the behavioural, cognitive, emotional, and sociocultural engagement (Eisenbach & Greathouse, 2020). These could be addressed by:

- activating students' schemata and going from the known to the unknown,
- making learning and tasks meaningful and relevant to their realities and contexts,
- setting literacy goals which are measurable and attainable, and
- fostering a positive sense of self-efficacy.

On a more practical level, teachers of adolescents who struggle with literacy are greatly encouraged to provide:

- explicit vocabulary instruction,
- direct and explicit comprehension strategy instruction,
- opportunities for extended discussion of text meaning and interpretation,
- students with a choice in text selection and text complexity,
- intensive and individualised interventions (e.g., Lexonik, Lexia PowerUp, Precision Teaching).

Continuous Assessment will account for **100% of the final mark**. The LOs which are to be reported on and on which the continuous assessment mark is based are listed on pages 58-61. Teachers are encouraged to assess students on all components (i.e., listening, speaking, reading, writing and literature) throughout the year with relevant, meaningful, age- and level-appropriate tasks based on the LOs indicated below. Finally, it should be noted that the Learning Outcomes are exit points, and as such, are to be regarded as targets for students to work towards **with the help and support of the teacher**.

ASSESSMENT PLAN FOR YEAR 7 & 8

APART FROM THE 10 SBA TASKS, LEARNERS WILL BE WORKING ON OTHER TASKS PEGGED TO THE REST OF THE LEARNING OUTCOMES WHICH EQUALLY NEED TO BE EFFECTIVE, MEANINGFUL AND MUST HAVE A PURPOSE.

HERE IS A **WORKING DEFINITION** OF A TASK WHICH TEACHERS MIGHT WISH TO ADOPT:

A classroom task will have a clear beginning and end; it may be quite short, or it may last over several lessons. For the [learner], a classroom task should have a clear communicative purpose and meaning; for the teacher, the task should have clear language learning goals...

Cameron (2001) in *Teaching Languages to Young Learners*

By the end of the scholastic year, students should have done a minimum of:

- **12 TASKS per language skill (writing, reading, listening, and speaking);**
- **8 TASKS per literary genre (poetry, prose, and drama);**

THESE TASKS INCLUDE THE SBA TASKS for the LOs MENTIONED ON PAGES 54-57.

AN OPTIONAL SPREADSHEET TO HELP TEACHERS COMPUTE THE MARKS IS AVAILABLE VIA THIS LINK: [HTTPS://TALEINMALTA.WIXSITE.COM/ELRC/LO-REPORTING-TOOL](https://taleinmalta.wixsite.com/elrc/lo-reporting-tool). PLEASE CHECK OUR WEBSITE FOR UPDATES.

Here are some suggestions of how you can teach and assess the Learning Outcomes for each strand.

The following authentic text types can be used to assess the different writing subskills and are highly recommended for Year 7 and Year 8 learners. Kindly note that the functions are not listed in any particular order. Although the functions have been paired with their respective text types, teachers may wish to include any of the functions with any text types.

Year 7		Year 8	
Text type	Function	Text type	Function
Text message (Electronic chat)	Giving directions Congratulating / Sending wishes	Text message (Electronic chat)	Giving instructions Giving or asking for information / news
Informal email or letter	Giving or asking for information / news Inviting and Accepting / Refusing an invitation Giving or asking for advice / suggestions Apologising / Thanking someone Describing a person	Informal email or letter	Apologising / Thanking someone / Refusing an invitation

Review	Reviewing a product / film/ series /TV programme / book	Biography	Describing a person
		Blog post	Giving an opinion
		Article	Describing a place Arguing in favour or against

Writing, like all the other strands, is a skill that can be learned and honed through practice. Teachers are expected to set **a guided or free writing task (long or short) every 2 weeks** throughout the scholastic year. Tasks set should be meaningful and relevant to students and should include **Genre** (e.g., formal email), **Audience** (e.g., Head of School) and **Purpose** (e.g., to ask for information) in mind.

All aforementioned text types are to be covered at least once during the scholastic year.

WORD COUNT

As from 2022, as indicated in the marking scheme available in the examination guidelines for Year 7 and 8, students will no longer be penalised for not adhering to the indicated word count in the annual examination. However, the following can be given as guidelines:

	Year 7			Year 8	
	SHORT	LONG		SHORT	LONG
Track 1	40-50	120-140		40-50	140-160
Track 2	50-60	160-180		50-60	180-200
Track 3	60-70	200-250		60-70	220-270

We encourage teachers to remind students who tend to write at length that overwriting increases the probability of making mistakes, and repeating content. In addition, it might also take away time which should be dedicated to the other components in the exam. On the other hand, students who underwrite might not manage to achieve the task fully.

Some examples of **task types** which can be used to assess the different writing subskills:

guided writing, free writing, written task with text input, short answer, sentence completion, gap filling, sentence transformation, information transfer and summary.

Some examples of **input / prompts** which can be used to assess the different writing subskills:

drawings, photographs, maps, diagrams, tables, graphs, letters (informal / formal), emails (informal / formal), title of story given, notes: words to use (word bank), messages, memos, advertisements, programmes, forms, excerpts from books / articles.

LITERARY DEVICES

The following table gives an overview of literary devices to be covered from Year 7 to Year 8. It should be noted that each year incorporates the literary devices of the year/s preceding it. Teachers are reminded that any teaching and learning about literary devices is to be done as part of the understanding and appreciation of poetry, prose, and drama texts. Moreover, teachers are free to expose students to any other literary devices they may come across while appreciating texts set at their level.

A minimum of twelve poems, one playscript, and two short prose texts OR one long prose text are to be covered each year.

As from 2022, the **Year 7 & 8 Annual Examination** paper, which will be set and issued centrally, will include the following:
