

INTEGRATED SCIENCE
FORM 1 / YEAR 7 LOs QUALITATIVE FEEDBACK
CCP

SCI CCP LOF 7.1 Unit: Young Scientist at Work

- I can recall and follow important laboratory safety rules.
- I can identify simple glassware and measuring instruments.
- I can identify 112 as the emergency telephone number.
- I can label and identify the main parts of the Bunsen burner.

SCI CCP LOF 7.2 Unit: Living things and the Environment

- I can identify a variety of living things.
- I can differentiate between vertebrates and invertebrates.
- I can link some characteristics of plants and animals to their habitats.
- I can interpret food chains.

SCI CCP LOF 7.3 Unit: Chemical Properties

- I can sort objects in solids, liquids and gases.
- I can use the terms melting and freezing.
- I can identify some properties of acids and alkalis.
- I can use litmus to identify acids, alkalis or neutral solutions.

SCI CCP LOF 7.4 Unit: Energy around us

- I can identify some forms of energy.
- I can identify the energy input and output in a common household device.
- I can use basic electrical components to construct a simple electric circuit.
- I can identify safety issues when handling electricity.

SCI CCP LOF 7.5 Unit: Cells and Reproduction

- I can use magnifying lens to observe small things.
- I can identify the correct position of the main organs on the human torso.
- I can identify the male and female reproductive organs and label some parts.
- I can identify some examples of good and bad practices for a pregnant woman.
