3. His photos are published in a famous book.		
4. There is a photo of Brian Skerry standing near a very big whale.		
5. He wants to solve the problems that these animals see every day.		

D. Underline the correct answer. The first one has been done for you.

(4 marks)

The photographers usually get a metre or (two / three / four) close to the animals. Their sounds are a type of (crying / language / playing) that they use to communicate. Once, they got near a whale that was (40 / 45 / 50) feet long and weighed (70 / 71 / 72) tonnes which they compared to a (fishing boat / school bus / submarine). Some of these animals are in danger because they are caught in nets, (boats / plastic / lines) and buoys. When this happens, they can actually (become violent / get injured / die) if no one saves them. Skerry believes that marine problems (were / cannot be / might be) solved. He thinks people should (collaborate / help / clean up) to do their bit to save the seas.
